

# JUNED DESHMUKH

## React/ Frontend Developer

@jdeshmukh077@gmail.com    (+91)7057573278  
Nashik, MH, India  
juned-deshmukh/    JunedDeshmukh

## EXPERIENCE

Infosys Ltd.

Frontend Developer (Client - CiscoWebex )

March 2022 – October 2024    Pune

- Worked extensively on a React application, maintaining and enhancing the CiscoWebex Help Center site
- Implemented critical bug fixes and styling enhancements using ReactJS, Bootstrap, and CSS3, resulting in improved site performance and an enhanced user interface.
- Developed new features focused on accessibility, ensuring compliance with WCAG standards, and improving the usability of the site for all users.

## PROJECTS

Wanderlust

Node.js | Express.js | MongoDB

project-wanderlust-u6a7.onrender.com/listings

A full-stack web application inspired by Airbnb, showcases core features like authentication, sessions and map integration – all structured using the MVC design pattern.

Implemented **authentication & authorization** using Passport.js, managed **user sessions** with secure cookies, and provided real-time **flash messages** for smooth UX.

Followed the **MVC architecture** for clean separation of concerns.

Integrated **Mapbox** for location-based property viewing and used **Cloudinary & Multer** for image uploads.

Tic-Tac-Toe

React.js

tic-tac-toe-one-drab-63.vercel.app/

A simple and interactive Tic Tac Toe game built using React, demonstrating component-based architecture and game logic.

Developed a responsive two-player game using React functional components and hooks . dynamic game logic for win/draw detection, turn-based interaction, and board reset.

Multiplayer Hangman Game

React | Zustand |TailwindCSS

hangman-game-three-sable.vercel.app/

Built a feature-rich Hangman game with React, Zustand, and JSON Server, supporting single/multiplayer modes and Presenter-Container architecture.

Game: Simon Says

HTML5 | CSS3 | Javascript

simon-says-game-gilt-beta.vercel.app/

Developed a memory-based Simon Says game using vanilla JavaScript, featuring user interaction and input validation. Used event listeners and setTimeout to manage game-play sequence and difficulty levels.

## PROFILE SUMMARY

Results-driven Frontend/Web Developer with 3 years of experience, skilled in delivering high-quality web applications and components within tight timelines. Proficient in frontend technologies with a strong understanding of backend principles, having collaborated with backend teams. Proven expertise in optimizing code for performance, ensuring client satisfaction. Additionally, experienced in enhancing web responsiveness and accessibility to create seamless user experiences.

## STRENGTHS

Javascript   ReactJS   React Native  
Zustand   NodeJS   ExpressJS  
MongoDB   Bootstrap   TailwindCSS  
Git / Github   Docker   Socket.IO

## EDUCATION

B.E. in Mechanical Engineering

Pune University

Sept 2016 – June 2019

Diploma in Mechanical Engineering

K.K.Wagh Polytechnic, Nashik

Aug 2013 – June 2016
